

RE50

Shockproof

Dynamic Omnidirectional

The RE50 was designed expressly for hand-held news-gathering work. It has the same tailored frequency response and high output level as the famous 635A. The RE50's rubber shock-mount "mike-within-a-mike" design achieves a degree of shock isolation never before known in the industry. The construction is also highly resistant to damage from mechanical shock. A built-in windscreen is a super effective "P-pop" filter too. Rugged extruded aluminum case and a Memraflex grille screen allow the RE50 to go anywhere, indoors or out.
