G12-65

A forerunner to the G12T-75, the G12-65 was originally created as a higher-power handling version of the G12M Greenback. Recognised as the voice of 1980s rock and blues, the speaker was particularly popular in 4x12 cabinets and is considered by many to be the finest speaker ever produced for use in this classic configuration.

Like the original G12-65, the Heritage Series re-creation of this legendary Celestion guitar loudspeaker has a tone that's best described as sitting somewhere between the G12M and the Classic Lead 80, with plenty of definition for high-gain playing styles without being too bright or aggressive. By adhering precisely to the initial design notes, specifications, materials and construction techniques, the Heritage Series G12-65 dishes up the cherished guitar tones of the '80s with almost unnerving accuracy.

8Ω FREQUENCY RESPONSE

GENERAL SPECIFICATIONS

Nominal diameter	12", 305mm
Power rating	65W
Nominal impedance	8Ω & 15Ω
Sensitivity	97dB
Chassis type	Pressed steel
Voice coil diameter	1.75", 44.5mm
Voice coil material	Round copper
Magnet type	Ceramic
Magnet weight	35oz, 0.99kg
Frequency range	80-5000Hz
Resonance frequency, F _s	85Hz
DC resistance, R _e	6.9Ω & 11.8Ω

MOUNTING INFORMATION

Diameter	12.2", 309mm
Overall depth	5.0", 128mm
Magnet structure diameter	5.7", 145mm
Cut-out diameter	11.1", 283mm
Mounting slot dimensions	0.31", 7.9mm Ø
Number of mounting slots	4
Mounting slot PCD	11.7", 297mm
Unit weight	12.1lb, 5.5kg
